WHAT IS AUTISM?

Autism Spectrum Disorder (ASD) and Autism are both general terms for a group of complex disorders of brain development.

These disorders are characterized, in varying degrees, by difficulties in social interaction, verbal and nonverbal communication and repetitive behaviors.

About 1 in 44 children have been identified with Autism Spectrum Disorder (ASD).*

FAMILY AUTISM CONNECTION

Family Autism Connection (FAC) is a grassroots non-profit organization created by a collaboration of educators and parents.

Our mission is to provide traditional family experiences for families in Rochester, NY and surrounding areas. We are an inclusive organization and serve families dealing with Autism Spectrum Disorder and other developmental delays as well as families without disabilities.

We provide skill-building opportunities to families and children that promote independence, healthy active lifestyles, networking and greater opportunities for families to participate in their community.
